SUMMARY

Aspiring Data Analyst with a solid technical background in Web Development and Design. Leveraging experience in building database solutions and responsive interfaces to create impactful data visualizations and efficient data structures. Adept at translating complex datasets into clear, actionable insights to support business decision-making.

EXPERIENCE

INTERN - WEB DEVELOPER, 03/2024 - 07/2024

DTwinZ House Menteng Bintaro, Tangerang Selatan

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Collaborated with designers to implement user-friendly interfaces.
- Assisted in debugging and troubleshooting website issues effectively.
- Conducted user testing to gather feedback for improvements.

FREELANCE - SPORTS DESIGN, 06/2024 - 10/2024

Upwork

- Utilized design software to create high-quality digital graphics and layouts.
- Researched current design trends to enhance visual impact of posters.
- Generated proofs of final design pieces before sending them off to printers or digital vendors.
- Utilized Adobe Photoshop, Canva, and other graphics software applications as needed.

FREELANCE - WEB DEVELOPER, 11/2024 - 12/2024

Afda Morgan Fresh, Indonesia

- Developed responsive web applications using HTML, CSS, and JavaScript.
- Maintaining website content management systems for accuracy and up-to-date information.
- Updated existing web pages based on user feedback and design changes.
- Designed database schemas to store user data securely.

PROJECT - SIMPLE PREDICTIVE MODEL

Course

- Developed predictive models using machine learning techniques to enhance data analysis.
- Utilized statistical tools to perform rigorous analysis on diverse datasets regularly.
- Implemented data quality checks to ensure integrity and reliability of information used.
- Performed exploratory analysis on large datasets using SQL and Python libraries such as Pandas, NumPy, Scikit-Learn, and Matplotlib.

PROJECT - XG PREDICTIVE MODEL

Thesis

- Developed data models using Python for predictive analytics tasks.
- Implemented machine learning algorithms to enhance data processing efficiency.
- Designed and built dashboards to visualize the results of data analyses.
- Conducted research on new technologies related to Data Science and Machine Learning.

EDUCATION AND TRAINING

UIN Syarif Hidayatullah, Jakarta, Indonesia

Sarjana Komputer (S.Kom): Information System

- Workshops and Seminars Attended: 3
- Professional Development Courses: 3
- Major in: Spatial Database, Data Analytics, Geographic Information System

CERTIFICATIONS & LICENSES

Cisco Python Institute - Data Analytics Essentials
Cisco Python Institute - Phyton Essentials
